Career Objective

I'm a full stack professional web developer with 5+ years experience in building high quality sites and web application. In the past 5 years of work experience, I worked by myself and in agile teams which helped me a lot to develop strong skills in the web development environment/architectures and about the design of RESTful APIs. Besides that, I learnt about Clean Code, TDD and Design Patterns.

I'm currently employed as a web apps developer at ITclanbd. I'm hands-on in all stages of the software development cycle, from planning and design to testing and deployment. No two days are the same for me, my tasks may involve analyzing algorithms, altering code, fixing bugs, brainstorming ideas, or integrating new systems.

I am passionate about clean code practices, privacy, best practices, user experience, and developer experience.

Skills

- Extensive knowledge on OOP, PHP.
- Strong knowledge about JavaScript.
- Also Expert on HTML, CSS, JQuery, Ajax, Vue Js, Vue X.
- Have Knowledge about React js.
